# COMPETITION RULES OF AESTHETIC GROUP GYMNASTICS

The International Federation of Aesthetic Group Gymnastics (IFAGG) holds the copyright on the following rules. Any use of this document (total or partial) without the consent of IFAGG is prohibited. These rules apply to all International Aesthetic Group Gymnastics competitions in Junior and Senior Categories organized by IFAGG and its members.

## 1. GENERAL

Aesthetic group gymnastics is composed of stylized and natural total body movements where hips form the basic movement center. The philosophy of the sport is founded on harmonious, rhythmic and dynamic movements performed with natural use of strength. This sport combines dance and gymnastics with grace and beauty.

### 1.1. COMPETITION ARRANGEMENTS

See IFAGG General Competition Rules.

### 1.2. COMPETITION CATEGORIES

**Junior Category:** gymnasts aged 14–16 years.

Two members of a group may be one year younger or one year older than the given minimum and maximum ages.

**Senior Category:** gymnasts aged 16 years and over.

Two members of a group may be one year younger than the given minimum age.

The age of a gymnast is determined based on their year of birth, not their actual date of birth.

### 1.3. COMPETING GROUP

#### 1.3.1. Number of Gymnasts

**Junior and Senior categories:** A group consists of 6–15 nominated gymnasts for the duration of a season. Reserve gymnast(s) belong(s) to the group.

For each specific competition, a team consists of 6–10 gymnasts on the competition carpet. Nomination to each competition during the same season (preliminaries and/or finals) must be done from among the (maximum) 15 nominated gymnasts.

A gymnast may compete during one competition season in maximum 2 (two) groups/teams and 2 (two) competition categories (example: junior and senior). (See IFAGG General Competition Rules).

In the event that a team begins the exercise with 6 or more gymnasts and in the middle of the exercise a gymnast drops out for any reason, the group will be penalized for a missing gymnast:

- **Penalty** by Head Judge of **Execution:** -0.5 for each missing gymnast or additional gymnast

#### 1.3.2. Ratio of Male and Female Gymnasts

Mixed-teams competition categories are opened for gymnasts of all genders. However, there must be at least two (2) male gymnasts and two (2) female gymnasts in each team.

It is not possible for a team to participate in any AGG competitions with any missing male and/or

female gymnast(s). Such teams will be automatically disqualified from the competitions. See General Competition Rules.

However, in "force majeure" situations, such as an injury of a gymnast that occurred during the competition, a group may participate in the competition. In such case, a group must officially inform IFAGG Council and Judge Responsible in a written form and IFAGG Council approval is required. The penalty -0.5 for each missing gymnast will be applied.

## 1.4. COMPETITION PROGRAM

### 1.4.1. Length of the Competition Program

The permitted length of a competition program is 2 min 00 sec – 2 min 45 sec.

Timing starts from the beginning of the first movement after the team has taken their starting position on the competition carpet. Timing stops as soon as all gymnasts are completely motionless.

- **Penalty** by Head Judge of **AV-A**: -0.1 for each additional or missing full second. Penalty is proposed by both Time Judges.

A team's entrance to their starting positions **must not** take too long, be accompanied by music, or include any extra movements.

- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.3 for entrance that takes too long, is accompanied by music, or includes extra movements

### 1.4.2. Music

The choice of music is free. Music can be interpreted by one or several instruments and is allowed to have voice(s) and words. The music must be unified and complete without interruptions, have a clear and well-defined structure and be appropriate for the gymnasts' age category. Disconnected musical fragments or irregular sound effects are not permitted. A short signal is permitted to sound before the music. Short musical introduction without movement is permitted.

There must be a single piece of music recorded in electronic format. The music must be provided to the organizers in the form requested.

The following information must be clearly marked in English on the CD or the accompanying electronic music file:

- club name/group name
- country of the group
- competing category
- length of the music.

Name(s) of the composer(s) and title of the music must be provided for the organizers if requested.

The program must be performed in their totality with a musical accompaniment.

When an incorrect music is played, the team is responsible for stopping the program immediately. The team restarts their program as soon as the correct music begins.

A team may repeat their program only in "**force majeure**" situations, such as an accident or an error caused by the organizers (i.e. power failure, sound system error, etc.). The approval of Judge Responsible/Superior Jury/Head Judges of Panels is required for the repetition of the program.

## 1.5. COMPETITION AREA

The size of the competition carpet is 13 m x 13 m including the borderline. The borderline must be marked clearly and be at least 5 cm wide. Gymnasts are not allowed to step outside the competition area during the competition program, including starting and ending positions.

- **Penalty** by Head Judge of **EXE**: -0.1 for each gymnast each time the borderline is crossed.

Penalty is proposed by Line Judges.

## 1.6. DRESS, HAIR AND MAKE-UP OF GYMNASTS

### 1.6.1. Dress

The competition dress used by a group must be a gymnastics leotard or unitard with an aesthetic appeal appreciating the spirit of the competitive sport.

Competition dress must be identical (in material and in style) and of the same colors for all members of the group. However, if the competition dress is made of patterned material, some slight differences due to the cut are tolerated.

Competition dress of male, female and other gender gymnasts must be as similar in style and colors as possible. However, slight differences between male, female and other gender gymnasts' dresses are tolerated.

Gymnasts must perform the program in any kind of beige colored toe shoes.

Competition dress must not hurt/insult any religion or nationality and must not express any political attitude/opinion.

- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): - 0.3 for dress hurting, insulting or expressing a religion, or taking a stand politically, or expressing hurting people.

#### 1.6.1.1. Dress of the Male Gymnasts

Competition dress of the male gymnasts must be a gymnastics leotard or unitard made of non-transparent material with the exception of sleeves and neckline. The neckline of the leotard must not be lower than the top of the breasts in the front and the bottom of the shoulder blades in the back.

In case a male gymnast wears a gymnastics leotard, it is required for him to wear tights made from non-transparent material down to ankles over or under the leotard.

Competition dress must fit the fatigue well and it must not distract or prevent clear sight of movements or disturb the evaluation of execution.

Decoration of a male gymnastics dress must be discrete and tasteful.

#### It is permitted to have:

- tights made from non-transparent material down to ankles, over or under the leotard,
- small decorations on competition dress (such as ribbons, rhinestones, rosettes etc.) that are aesthetic and do not disturb the execution of the program,
- skin-colored bandages and support tapes,
- national emblems and logos in conformity with General Competition Rules (size max. 30 cm<sup>2</sup>). Emblems can be situated on the upper arm or hip area of the competition dress.

#### It is forbidden to have:

- hats or any other headgear,
  - separate decorations on wrists, ankles and/or neck,
  - all types of earrings and other jewelry,
  - any lights in the competition dress,
  - gloves or sleeves on palm,
  - too large decorations or decorative elements in the competition dress that do not allow the judges to see the movements,
  - pants.
- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 for one gymnast and -0.2 for two or more gymnasts for dress not conforming to these rules.

#### 1.6.1.2. Dress of the Female and other gender Gymnasts

Competition dress of the female and other gender gymnasts must be a gymnastics leotard or unitard,

with or without a skirt made of non-transparent material with the exception of sleeves, neckline, and legs for the part below the fold of the crotch. The neckline of the leotard must not be lower than the top of the breasts in the front and the bottom of the shoulder blades in the back. The cut of the skirt must be long enough to cover the groin in the front and the glutei in the back.

Competition dress must fit the fatigue well and it must not distract or prevent clear sight of movements or disturb the evaluation of execution.

It is permitted to have:

- tights down to ankles, over or under the leotard,
- small decorations on competition dress/skirt (such as ribbons, rhinestones, rosettes etc.) that are aesthetic and do not disturb the execution of the program,
- skin-colored bandages and support tapes,
- national emblems and logos in conformity with General Competition Rules (size max. 30 cm<sup>2</sup>). Emblems can be situated on upper arm or hip area of the competition dress.

It is forbidden to have:

- hats or any other headgear,
  - separate decorations on wrists, ankles and/or neck,
  - all types of earrings and other jewelry,
  - any lights in the competition dress,
  - gloves or sleeves on palm,
  - too large decorations or decorative elements in the competition dress that do not allow the judges to see the movements,
  - pants.
- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 for one gymnast and -0.2 for two or more gymnasts for dress not conforming to these rules.

### 1.6.2. Hair

Hair (except short hair) must be tied for the safety of the gymnasts.

For female and other gender gymnasts, it is allowed to wear small hair decoration (including a scrunchie around the hair bun) of a maximum size of all together hair decorations approximately 5 x 10 cm, height from scalp max 1 cm. The decorations need to be the same style.

For male gymnasts, it is not allowed to wear any hair decorations at all.

Hairdo of the gymnasts must stay unchanged from the beginning till the end of the program. Each destroyed hairdo will result in an AV-A penalty.

*Clarification: Loss of small hair pins and small rhinestones will not be penalized.*

It is not allowed to use hair dyes that can transfer to the competition area.

- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 for one gymnast and -0.2 for two or more gymnasts for hair not conforming to these rules.
- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 for each destroyed hairdo
- **Penalty** by Head Judge of **AV-A**: -0.1 for **each** lost item (hair decoration, toe shoes etc.). Penalty is proposed by Line Judges.

### 1.6.3. Make-up

Make-up should conform to the principles of competitive sports, but not a show or performance.

For female and other gender gymnasts, it is allowed to have a sportive, moderate, and aesthetic make-up. Theatrical make-up, drawings or other drawings on the face, stones or sequins, glitter shadows, too dark/unnatural lipstick color, colored contact lenses etc. are not allowed. The artificial

eyelashes are allowed (but not longer than 1 cm).

For male gymnasts, it is not allowed to have any make-up at all.

- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 for one gymnast and -0.2 for two or more gymnasts for make-up not conforming to these rules.

## 1.7. DISCIPLINE

### 1.7.1. Doping

See IFAGG General Rules.

As a precondition for participating in IFAGG events, a person must follow the anti-doping rules. All gymnasts, coaches, assistants of gymnasts, and officials are required to become familiar with the anti-doping rules. Information on banned substances and methods can be found on the WADA website: <http://www.wada-ama.org/>.

### 1.7.2. Discipline of Gymnasts and Coaches

All the teams must be present and perform their program at the official training.

***If a group does not participate in the official competition training, they are prohibited from competing in that competition (except in extenuating circumstances and then only when approved by Judge Responsible/IFAGG Council).***

All groups and coaches must respect the competing team and not disturb the competing team, evaluating judges and audience during competition and/ or trainings. Loud voices or music from outside the competition area during performances of other teams are not allowed and will result in a penalty deducted from AV-A.

- **Penalty by Judge Responsible:** -0.3 for discipline of the coach

Gymnasts are not allowed to warm up on the spot before entry to the carpet. During the competition program coaches and reserve gymnasts have to stay in the place designated for coaches. They cannot stay in any visible place near the carpet. This will lead to a penalty deducted from the AV-A.

- **Penalty by Judge Responsible:** -0.3 for discipline of the coach and/or gymnast/s

In no case may a coach, team leader or other official person communicate verbally or by signals with a gymnast or with a team during the program. Any assistance contributing to the successful execution of a program will result in a penalty deducted from AV-A.

- **Penalty by Judge Responsible:** -0.3 for assistance by a coach

Gymnasts are not allowed to make any vocal sounds during the program, except single claps, taps or similar rhythmic effects and will result in a penalty deducted from AV-A.

- **Penalty** by Head Judge of **AV-A** (proposal from the majority of AV-A judges): -0.1 each time.

For other discipline regulations see IFAGG Discipline Code.

## 2. TECHNICAL VALUE

Technical Value (TV) consists of:

Balances Jumps and leaps Body Movements (BM) and Body Movements Series (BMS) Combined Series (Series combined of Different Movement Groups) Acrobatic and pre-acrobatic elements Lift elements	<b>Total          Technical          Value Score          10.0</b>
---	--

### Level and value of the difficulties:

#### Balances and Jumps/Leaps:

Level:	=	Value:
A	=	0.1
B	=	0.2
C	=	0.3

#### Balances and Jumps/Leaps Series:

Level:		=	Value:
A-series	A+A	=	0.2
C-series	A+B or B+A	=	0.3
D-series	B+B or A+C or C+A	=	0.4
E-series	B+C or C+B	=	0.5
F-series	C+C	=	0.7*

\* The highest possible combination (C + C) in Balances and Jump/Leaps series will get an extra +0.1 point.

#### Required Total Body Movements:

Total body wave	=	0.3
Total body swing	=	0.3

#### Body Movements Series (BMS):

- A-BM series = 0.3 – series including any two (2) different body movements
- B-BM series = 0.4 – series including any three (3) different body movements
- C-BM series = 0.5 – series including any four (4) different body movements

#### Combined Series of different groups of Movements:

BM series	+ BALANCE	=	0.4 – 0.9*
BM series	+ JUMP/LEAP	=	0.4 – 0.9*
BALANCE	+ BM series	=	0.4 – 0.9*
JUMP/LEAP	+ BM series	=	0.4 – 0.9*
Balance	+ Jump/Leap (or vice versa)	=	0.2 – 0.7*

\* The highest possible combination (C-balance/jump/leap + C-BM series (or vice versa), C-balance + C-jump/leap (or vice versa) will get an extra + 0.1 point.

**Acrobatic and pre-acrobatic elements:**

Level:	=	Value:
A	=	0.1
B	=	0.2
C	=	0.3

**Lift elements:**

<u>Level</u>		<u>Additional criteria</u>		<u>Value</u>		<u>Value</u>		<u>Total Value</u>
A			=	0.1			=	<b>0.1</b>
	+	one (1) criterion		0.1	+	0.1	=	<b>0.2</b>
	+	two (2) criteria		0.1	+	0.2	=	<b>0.3</b>
	+	three (3) criteria		0.1	+	0.3	=	<b>0.4</b>
	+	four (4) criteria		0.1	+	0.4	=	<b>0.5</b>
B			=	0.2			=	<b>0.2</b>
	+	one (1) criterion		0.2	+	0.1	=	<b>0.3</b>
	+	two (2) criteria		0.2	+	0.2	=	<b>0.4</b>
	+	three (3) criteria		0.2	+	0.3	=	<b>0.5</b>
	+	four (4) criteria		0.2	+	0.4	=	<b>0.6</b>

## 2.1. REQUIRED ELEMENTS OF THE PROGRAM

To get the maximum Technical Value score, the following elements must be included in the program.

### 2.1.1. Balances

The composition must contain 1 balance (static or dynamic) and 1 balance series, which can be performed on a flat foot or on relevé. A maximum of two (2) different shapes can be used in each element.

All balances must be performed clearly and have the following characteristics:

- shape is fixed and well-defined during the balance (**“photo”**),
- sufficient height of the raised leg, according to the element criteria
- good body control during and after the balance,
- performed with high relevé or flat foot.

#### Static balances

Static balances can be performed on one foot, on one knee or in a “cossack” position. During a balance, the free leg must be raised at minimum 90°. Only one leg can be bent when performing a balance.

- Passé balance does not count as a difficulty (Exception: pivots in passé position).

Dynamic balances (tourlents, illusions, pivots) are executed on one foot and must have the following characteristics:

Tourlents (slow turn, promenade):

- A rotation of 360° must be completed in a fixed shape.
- When performing a tourlent with a rotation of 360°, maximum 4 heel supports are allowed.
- Tourlents must start after the initial position of the balance is fixed.
- All criteria concerning level of the free leg, hand support and shape of body movements are the same as for static balances.

Illusions:

- A rotation of 360° from shoulder and hip line must be completed.

Pivots:

- A rotation of a minimum of 360° must be completed **in a fixed shape**.
- If the required rotation in a dynamic balance is not shown by every gymnast, the element is not counted as a balance.
- Both legs can be bent during pivots.

Addition of following criteria to the basis shape increases the value of static and dynamic balances:

- Balance performed with a body movement (bending, twisting etc.). Criteria for amplitude of body movement required to raise the technical value of a balance: see Appendix.
- Balance performed with a rotation of 360° in a fixed shape (tourlents).
- Balance performed with a rotation of minimum 360° in a fixed shape (pivots).
- Balance performed without a hand/s support of the free leg.
- Balance performed with higher amplitude than required shape.
- Static balance with amplitude of raised leg minimum of 135° performed on high relevé (This criterion works only from B level to C level).

For all additional criteria and clarifications, see Appendix.

#### Balance series

A combination of two (2) different balances (level A, B or C) performed successively on the same leg or with a change of the supporting leg. A maximum of one (1) step is allowed between two (2) balances in the series, but it is not allowed to stand on both feet between the balances.

### Balances starting with hand/s support on the floor

A maximum of two (2) balances during the program can start with the support of one (1) hand or two (2) hands on the floor. Hand/s support on the floor can last for a maximum of one (1) second after the initial position of the balance is fixed.

If the hand/s support lasts for more than one (1) second, the element **will not** be counted as a balance.

If there are more than two (2) balances starting with hand/s support on the floor, they **will not** be counted as technical elements.

**Table of values: Examples of Balances**

Category	A-level Value 0.10	B-level Value 0.20	C-level Value 0.30
1. Pivot in a passé shape	360° rotation in a passé pivot	360° rotation in a passé pivot + BM	720° rotation in a passé pivot + BM
		720° rotation in a passé pivot	
2. Pivot with amplitude below 90°, free leg in different directions	360° rotation in a pivot with amplitude below 90°	360° rotation in a pivot with amplitude below 90° + BM	720° rotation in a pivot with amplitude below 90° + BM
		720° rotation in a pivot with amplitude below 90°	
3. Free leg raised 90° with hand support – front, side, back	90° with hand support + BM	90° with hand support + BM + 360° rotation	90° with hand support + BM + 720° rotation
	90° with hand support + 360° rotation		
4. Free leg raised 90° without hand support – front, side, back	90° without hand support	90° without hand support + BM	90° without hand support + BM + 360° rotation
		90° without hand support + 360° rotation	90° without hand support + 720° rotation
5. Free leg raised min. 135° with hand support – front, side	135° with hand support	135° with hand support + BM/ 360° rotation	135° with hand support + BM + 360° rotation / relevé
		180° with hand support	135° with hand support + 720° rotation
			180° with hand support + BM/ 360° rotation/ relevé

6. Free leg raised min. 135° without hand support – front, side		135° without hand support	135° without hand support + BM/ 360° rotation/ relevé
			180° without hand support
7. Free leg raised min. 135° with hand support – back	135° with SAME HAND support	135° with SAME HAND support + 360° rotation	135° with SAME HAND support + 720° rotation
		180° with SAME HAND support	180° with SAME HAND support + 360° rotation/ relevé
		135° with OPPOSITE HAND/HANDS support	135° with OPPOSITE HAND/HANDS support + 360° rotation/ relevé
			180° with OPPOSITE HAND/HANDS support
8. Free leg raised min. 135° without hand support – back		135° without hand support	135° without hand support + 360° rotation/ relevé
			180° without hand support
9. Illusion forward and backwards with rotation min. 360°, hand(s) must not touch the floor	Illusion forward with rotation minimum 360°, amplitude min. 135°	Illusion forward with rotation minimum 360°, amplitude min. 180°	
		Illusion backwards with the amplitude of min. 135°	Illusion backwards with the amplitude of min. 180°

*Criteria for body movement's amplitude to raise the technical value of a balance: see Appendix.*

Other balances not listed in the "Examples of Balances" table but meeting the necessary requirements are permitted.

Balances will not be counted as a difficulty when having the following mistakes:

- shape is not fixed and not well-defined during the balance ("**photo**"),
- insufficient height of the raised leg,
- insufficient rotation (less than 360°) during a tourlent, illusion or pivot,
- C-balance has 0.6 or more points of EXE mistakes,
- B-balance has 0.6 or more points of EXE mistakes,
- A-balance has 0.4 or more points of EXE mistakes.

Lowering the level of difficulty:

In some cases, the level of a difficulty is lowered:

- If C-balance has 0.4–0.5 points of EXE mistakes, it will be counted as a B-balance.
- If B-balance has 0.4–0.5 points of EXE mistakes, it will be counted as an A-balance.

## 2.1.2. Jumps and Leaps

The composition must contain 1 jump or leap and 1 jump series (combination of 2 different jumps or leaps). A maximum of two (2) different shapes can be used in each element.

Jumps and leaps must have the following characteristics:

- shape fixed and well-defined during the flight,
- good elevation during the jump or leap,
- good body control during and after the jump or leap,
- landing must be light and soft.

The shape and elevation during the flight determine the difficulty level of a jump or leap.

### Clarifications to Jumps and Leaps:

- The same jump or leap shape can be used and will count as another technical element (variation) if it is performed:
  - with a turn of minimum 180° (Example: basic shape - split leap, variation - jeté en tournant)
  - with a different take-off (Example: from one leg, variation - from assemblé)
- A maximum of three (3) supports between the 2 jumps or leaps in a series are allowed:

**Example 1:** Leap from the right leg, land on the left leg, step with the right leg, leap from the left leg, and land on the right leg.

**Example 2:** Split leap and ring jump. After landing (1 support), an assemblé on two legs (2 supports) is permitted.

Addition of following criteria to the basis shape increases the value of jumps and leaps:

- Jump/Leap performed with a body movement (bending, twisting etc.). Criteria for amplitude of body movement required to raise the technical value of a jump/leap: See Appendix.
- Jump/Leap performed with a rotation: a turn of minimum 180° in a fixed shape AND/OR 360° from the moment of take-off to the moment of landing. (Note: the criteria of rotation will depend on the technique and amplitude of a jump/leap).
- Jump/Leap performed with en tournant technique.
- Jump/Leap performed with higher amplitude than required shape.

**Table of values: Examples of Jumps and Leaps:**

Category	A-level Value 0.10	B-level Value 0.20	C-level Value 0.30
1. Jump without amplitude between the legs	Jump without amplitude between the legs + rotation	Jump without amplitude between the legs + rotation + BM	
	Jump without amplitude between the legs + BM		
2. Cabriole jump/leap	Cabriole in different directions	Cabriole + BM	Cabriole + BM + rotation
		Cabriole + rotation	
3. Jump/leap with 90° amplitude between the legs, free leg in different directions	90° amplitude	90° amplitude + BM	90° amplitude + BM + rotation
		90° amplitude + rotation	
4. Pike jump/leap	Pike shape	Pike shape + BM	Pike shape + BM + en tournant
		Pike shape + en tournant/rotation	Pike shape + BM + rotation
5. Stag jump/leap amplitude minimum 135°	Stag shape (front knee horizontal)	Stag shape + BM (front knee horizontal)	Stag shape + BM + rotation (front knee horizontal)
		Stag shape + rotation (front knee horizontal)	Stag shape + BM + en tournant (front knee horizontal)
		Stag shape + en tournant (front knee horizontal)	
	Stag shape + BM (front knee not horizontal)	Stag shape + BM + rotation (front knee not horizontal)	
	Stag shape + rotation (front knee not horizontal)	Stag shape + BM + en tournant (front knee not horizontal)	
	Stag shape + en tournant (front knee not horizontal)		
		Stag shape + switch of STRAIGHT legs	Stag shape + switch of STRAIGHT legs + BM
			Stag shape + switch of STRAIGHT legs + rotation
		Stag shape + switch of STRAIGHT legs + en tournant	
6. Cossack jump/leap	Cossack shape	Cossack shape + BM	Cossack shape + BM + rotation
		Cossack shape + rotation	Cossack shape + BM + en tournant
		Cossack shape + en tournant	Cossack shape with amplitude 180° + BM
7. Cat jump/leap, with 180° amplitude	Cat shape	Cat shape + BM/rotation/en tournant	Cat shape + BM + rotation/en tournant

8. Split jump/leap	135° amplitude	135° amplitude + BM	135° amplitude + BM + rotation	
		135° amplitude + rotation	135° amplitude + BM + en tournant	
		135° amplitude + en tournant		
		180° amplitude		180° amplitude + BM
				180° amplitude + rotation
			180° amplitude + en tournant

		135° amplitude with the switch of BENT legs + rotation / en tournant	135° amplitude with the switch of BENT legs + BM + en tournant	
		180° amplitude with the switch of BENT legs	180° amplitude with the switch of BENT legs + BM/ rotation / en tournant	
		135° amplitude with the switch of STRAIGHT legs	135° amplitude with the switch of STRAIGHT legs + BM/ rotation / en tournant	
	Side split, amplitude 135°		180° amplitude with the switch of STRAIGHT legs	
Side split, amplitude 135° + BM/ rotation/ en tournant		Side split, amplitude 135° + BM + rotation/ en tournant		
	Side split, amplitude 180°	Side split, amplitude 180° + BM/ rotation/ en tournant		
9. Ring jump/leap	Ring shape (less than 45° hips /less than 80° bending)	Ring shape (= 45° hips /= 80° bending)	Ring shape (more than 45° hips /80° bending)	
			Ring shape + rotation	
			Ring shape + en tournant	

Jumps and leaps that are not listed in the “Examples of Jumps and Leaps” table but meet the necessary requirements, are permitted.

**Amplitude is measured from the line between the knees; both thighs must show a fixed shape where the amplitude of flexibility in hip joint is clearly measurable (see Appendix).**

**Jumps/leaps landing on the floor with support of other body part than feet**

Jumps and leaps normally land on a foot/the feet, however, a maximum two (2) jumps/leaps in a program can land on a different body part, e.g. knees or with support of the different body part, e.g. hands/arms support.

If there are more than two (2) jumps/leaps landing on the floor with support of other body part than feet, they will not be counted as technical elements.

Note: If a jump/leap lands on a foot/the feet and is immediately followed by somersault, roll or other body movement, the jump/leap will be counted as a foot/feet landing.

Jumps or leaps will not be counted as a difficulty when having the following mistakes:

- shape is not fixed and well-defined during a jump/leap,
- insufficient elevation of the jump or leap,
- C-jump/leap has 0.6 or more points of EXE mistakes,
- B-jump/leap has 0.6 or more points of EXE mistakes,
- A-jump/leap has 0.4 or more points of EXE mistakes.

Lowering the level of difficulty:

In some case, the level of a difficulty is lowered:

- If C-jump/leap has 0.4–0.5 points of EXE mistakes, it will be counted as a B-jump/leap.
- If B-jump/leap has 0.4–0.5 points of EXE mistakes, it will be counted as an A-jump/leap.

### 2.1.3. Body Movements

Aesthetic Group Gymnastics is composed of stylized and natural total body movements where hips form the basic movement center. A movement performed with one part of the body is reflected throughout the entire body.

The composition must contain in minimum the following body movement elements:

- o 2 total body waves
- o 2 total body swings
- o 4 BM series = series including several different body movements

#### VALUES FOR BODY MOVEMENT SERIES

A-BM series	(2 BM)	=	0.3
B-BM series	(3 BM)	=	0.4
C-BM series	(4 BM)	=	0.5

Fundamental Body Movements:

- o body wave
- o body swing
- o bending
- o lean or lunge
- o twisting
- o contraction
- o relaxation

*Characteristics for body movements: see appendix*

All body movements series must be performed fluently and must underline continuity from one movement to the next as if they were created by the previous movement. Body movement series can be performed with arm movements (swings, pushes, waves, figure eights, etc.) or different kinds of steps (rhythmic steps, walking, running, etc.).

### 2.1.4. Combined Series (Series Combined of Different Movement Groups)

The composition must contain series combined of two (2) different movement groups (Body Movement Series, Balances and Jumps). A maximum of two (2) different shapes of jumps, leaps and balances can be used in each element.

In a series, one step between the movement groups is allowed. If a jump is used as the second element in the series, an assemblé on two feet is permitted between the elements (not allowed to have a step and an assemblé). Connection between movement groups must be logical and be performed fluently.

#### Possible Combinations for Combined Series:

Balance	+	BMS
Jump/Leap	+	BMS
BMS	+	Balance
BMS	+	Jump/Leap
Balance	+	Jump/Leap <i>or vice versa *</i>

\*If half of the team performs jump/leap+balance and other half of the team performs vice versa balance+jump/leap, this will not be counted as a combined series.

**Only four (4) highest levels of difficulties will be counted for the final score.** The combination in each combined series must be different. The same combination will be counted only once.

- If the **simultaneously** performed difficulties are of different levels, the difficulty level is determined by the value of the lower difficulty level.

**Values of Combined Series (Series Combined of Different Movement Groups) 0.2 – 0.9**

The value of a Combined Series is determined **by the aggregate value of its components.**

Determination of value must follow mathematical addition rules.

**Balance or Jump/Leap + BM series (and vice versa)**

Level		Level		Value		Value		Total Value
A	+	A-BM series (2 BM)	=	0.1	+	0.3	=	<b>0.4</b>
		B-BM series (3 BM)				0.4	=	<b>0.5</b>
		C-BM series (4 BM)				0.5	=	<b>0.6</b>
B	+	A-BM series (2 BM)	=	0.2	+	0.3	=	<b>0.5</b>
		B-BM series (3 BM)				0.4	=	<b>0.6</b>
		C-BM series (4 BM)				0.5	=	<b>0.7</b>
C	+	A-BM series (2 BM)	=	0.3	+	0.3	=	<b>0.6</b>
		B-BM series (3 BM)				0.4	=	<b>0.7</b>
		C-BM series (4 BM)				0.5	=	<b>0.9*</b>

**Balance + Jump/Leap (or vice versa)**

Level		Level		Value		Value		Total Value
A	+	A	=	0.1	+	0.1	=	<b>0.2</b>
		B				0.2	=	<b>0.3</b>
		C				0.3	=	<b>0.4</b>
B	+	A	=	0.2	+	0.1	=	<b>0.3</b>
		B				0.2	=	<b>0.4</b>
		C				0.3	=	<b>0.5</b>
C	+	A	=	0.3	+	0.1	=	<b>0.4</b>
		B				0.2	=	<b>0.5</b>
		C				0.3	=	<b>0.7*</b>

*\*Exception: the highest possible combination (C balance/jump/leap + C-BM series, C balance + C jump/leap or vice versa) will get an extra +0.1 point.*

**2.1.5. Acrobatic and pre-acrobatic elements**

The composition must contain two (2) different acrobatic or pre-acrobatic elements.

Acrobatic elements are movements in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s), head or in the air.

Pre-acrobatic elements are acrobatic movements in which the gymnast's body does not rotate on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s), head or in the air.

All acrobatic and pre-acrobatic elements must be performed fluently and with consideration to the gymnasts' agility and skills, correct techniques, and must be naturally integrated in the composition.

Required pre-acrobatic elements may be included in Body Movement Series or Combined Series.

Required acrobatic elements must not be included in Body Movement Series or Combined Series.

### **Permitted acrobatic and pre-acrobatic elements:**

#### **a) Acrobatic elements without air time**

All acrobatic elements without air time in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s) or head – such as cartwheel (all types), walkover (all types), chest roll (all types), etc.

#### **b) Acrobatic elements with air time**

All acrobatic elements with air time in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down in the air – such as walkover and cartwheel with air time (with hand/s support – handspring, without hand/s support – aerial), flip (forward or backward), etc.

No more than one full rotation (360°) in the air is allowed. Gymnasts may start the element from one foot, both feet, from standing, plié or from a round-off. In case an element is started from a round-off, it will be considered as one (1) acrobatic movement. Gymnasts must finish the element on one foot or both feet.

#### **c) Pre-acrobatic elements**

All pre-acrobatic elements in which the gymnast's body does not rotate on or over its vertical position (head-shoulders-hips line) upside down – such as somersault (forward or backward) with or without airtime, wheel with support on various parts of the body (chest, elbows or shoulders), shoulder roll (transition through the chest to the shoulder blades or vice versa), lateral rotations passing through a bridge (all types), etc.

#### **d) Stands on various parts of body**

All types of stands on various parts of the body with clear and fixed stop in the vertical position during the element (hand stand, shoulder stand, chest stand, elbow stand, bridge, etc.).

The fixed stop must be clearly visible but must not be longer than two (2) seconds. It is not allowed to perform a stand on a head. Stands on various parts of body must not be a part of the starting and ending positions. Bending in the lumbar spine during the element will result in an EXE deduction.

#### **e) Acrobatic and pre-acrobatic elements transitioning into stands on various parts of body and vice versa**

All acrobatic and pre-acrobatic elements without air time transitioning into any type of stand on various parts of the body with clear and fixed stop in the vertical position during the element or vice versa – such as somersault backward transitioning into hand stand, etc.

The fixed stop must be clearly visible but must not be longer than two (2) seconds. It is not allowed to perform a stand on a head. Stands on various parts of body must not be a part of the starting and ending positions. Bending in the lumbar spine during the element will result in an EXE deduction.

All acrobatic and pre-acrobatic elements that do not meet the necessary requirements and are not listed in the “Examples of acrobatic and pre-acrobatic elements” will be considered as forbidden movements and will result in an AV-A penalty. Those elements will not be counted as elements with a technical value either.

### **Acrobatic and pre-acrobatic elements penalties:**

*by proposal of the majority of the AV-A judges*

- forbidden acrobatic or pre-acrobatic element: -0.5 / each time / each element

**Table of values: Examples of acrobatic and pre-acrobatic elements**

Level of element:	Type of element:	Value:
A	Somersault with/without air time forward, backward	0.1
	Stand on various parts of the body (hand, shoulder, chest, elbow, bridge, etc.)	
	Lateral rotations passing through a bridge (all types)	
B	Cartwheel/walkover without air time (all types)	0.2
	Chest roll (all types)	
	Wheel with support on various parts of the body (chest, elbows or shoulders)	
	Shoulder roll (transition through the chest to the shoulder blades or vice versa)	
C	Acrobatic and pre-acrobatic elements without air time transitioning into any type of stand on various parts of the body with clear and fixed stop in the vertical position during the element or vice versa (such as somersault backward transitioning into hand stand, shoulder stand into somersault forward, etc.)	0.3
	Walkover and cartwheel with air time (handspring, aerial)	
	Flip (forward or backward)	

If the **simultaneously** performed difficulties are of different levels, the difficulty level is determined by the value of the lower difficulty level.

A maximum of 2 different types of an acrobatic and/or pre-acrobatic elements are allowed to perform during one acrobatic and/or pre-acrobatic element.

Other acrobatic and pre-acrobatic elements not listed in the “Examples of acrobatic and pre-acrobatic elements” table but meeting the necessary requirements are permitted.

Acrobatic and pre-acrobatic elements will not be counted as a difficulty when having the following mistakes:

- forbidden element (element performed not according to the rules),
- C-level acrobatic/pre-acrobatic element has 0.6 or more points of EXE mistakes,
- B-level acrobatic/pre-acrobatic element has 0.6 or more points of EXE mistakes,
- A-level acrobatic/pre-acrobatic element has 0.4 or more points of EXE mistakes,
- total fall of the gymnast(s).

### Lowering the level of difficulty:

In some case, the level of a difficulty is lowered:

- If C-level acrobatic/pre-acrobatic element has 0.4–0.5 points of EXE mistakes, it will be counted as a B-level acrobatic/pre-acrobatic element.
- If B-level acrobatic/pre-acrobatic element has 0.4–0.5 points of EXE mistakes, it will be counted as an A-level acrobatic/pre-acrobatic element.

### **2.1.6.Lift elements**

The composition must contain one (1) lift element.

A lift is a collaborative element in which the lifted gymnast/s lose/s contact with the floor and has their body completely supported by the other gymnast/s. The lifted gymnast/s must be active (has to help with their own power during the lift).

Due to the safety reasons, it is not allowed for a male gymnast to be lifted (to lose contact with the floor and have their body completely supported by the other gymnast/s) by an only one female and/or other gender gymnast.

The composition may include lifts, pyramids or various collaborations that must be performed:

- with consideration to the gymnasts' ability and skills (healthy aspects),
- with a good technique (muscles control, fluency etc.),
- with a logical connection to the program.

Lifts, pyramids and collaborations must be aesthetic and must not be overused in the composition.

The whole team must participate either by physical contact or by passing over, under or through a gymnast/gymnasts in some part of the “main action” of the lift element (from take-off to landing). At least one gymnast must lose contact with the floor so that the lifted gymnast(s) is/are supported by other gymnasts.

It is allowed to perform the lift elements in subgroups. There must be at least 4 gymnasts in each subgroup. Should this element be performed in the subgroups, the lift elements must be totally identical for all of the subgroups. There must be an identical number of gymnasts in each subgroup.

Lifts must be performed with consideration to the gymnasts' ability and skills (health aspect). During a lift, the lifted gymnast(s) can go over the vertical line in an upside-down position but must not stop in that position. One gymnast must not lift more than the weight of one gymnast at the same time. Height of the lift cannot be higher than the height of two gymnasts and no more than three levels, including the lifting gymnast(s).

### **Forbidden lift elements:**

The following lifts, pyramids and collaborations are forbidden in any part of the composition:

- having one gymnast lifting the weight of more than one other gymnast at the same time,
- performing a lift or a pyramid that is higher than the height of two gymnasts and no more than three levels, including the lifting gymnast/s,
- an acrobatic element with air time performed by a lifted gymnast during a lift,
- having male gymnast being lifted by an only one female and/or other gender gymnast,
- vertical rotation with air time during a lift element.

### **Lift elements penalties:**

*by proposal of the majority of the AV-A judges*

- forbidden lift element: -0.5 / each time / each element

**Table of values: Examples of lift elements**

Level of element:	Category	Basic value:
A	lift elements performed <b>below</b> a shoulder level of the lifting gymnast(s)	0.1
B	lift elements performed <b>above*</b> a shoulder level of the lifting gymnast(s) <i>* The whole body of the lifted gymnast/s must be lifted above the shoulder level of the lifting gymnast/s.</i>	0.2

**2.1.6.1. Additional criteria to the lift elements:**

The value of a lift element can be increased by performing the following additional criteria:

<b>Additional criteria:</b>	<b>Value:</b>
Rotation of a gymnast/gymnasts during a lift element	+ 0.1
Travelling during a lift element	+ 0.1
Release (air time) of a gymnast/gymnasts during a lift element	+ 0.1
Switching from one form into another during a lift element	+ 0.1

If a team successfully performs an additional criterion to the basic level of a lift element, the basic value of a lift element will be increased by +0.1 points each time for each successfully performed additional criterion.

The number of additional criteria allowed to perform during a lift element is not limited.

The additional criteria can be performed during the initial, main or final phase of the lift.

**Rotation of a gymnast/gymnasts during a lift element (+ 0.1):**

Gymnast/s rotate/s over their vertical or horizontal axis during a lift element. At least one full round of 360° must be performed during the initial, main and/or final phase of the lift.

During a lift element, gymnast/s might rotate with the help of other gymnast/s or on their own (in the air). However, it is not allowed to perform a vertical rotation with air time during a lift element. Such elements will be considered as forbidden movements and will result in an AV-A penalty. Those elements will not be counted as elements with a technical value either.

**Travelling during a lift element (+ 0.1):**

Lifted gymnast/s is carried for the distance of at least 1.5 m since the initial phase until the final phase of a lift element.

**Release (air time) of a gymnast/gymnasts during a lift element (+ 0.1):**

Lifted gymnast/s is released into the air by the lifting gymnast/s. Release must be clearly visible and both lifted and lifting gymnast/s must be active (must help with their own power during a lift element).

**Switching from one form into another during a lift element (+ 0.1):**

Lifted gymnast/s must switch form one form into another during the initial, main and/or final phase of a lift element. At least two (2) different positions of the trunk of the lifted gymnast/s are required (e.g. standing - sitting, lying down - bending etc.).

**Total value of the lift and collaboration elements:**

Level	Additional criteria		Value		Value		Total Value
A		=	0.1			=	<b>0.1</b>
	+ one (1) criterion		0.1	+	0.1	=	<b>0.2</b>
	+ two (2) criteria		0.1	+	0.2	=	<b>0.3</b>
	+ three (3) criteria		0.1	+	0.3	=	<b>0.4</b>
	+ four (4) criteria		0.1	+	0.4	=	<b>0.5</b>
B		=	0.2			=	<b>0.2</b>
	+ one (1) criterion		0.2	+	0.1	=	<b>0.3</b>
	+ two (2) criteria		0.2	+	0.2	=	<b>0.4</b>
	+ three (3) criteria		0.2	+	0.3	=	<b>0.5</b>
	+ four (4) criteria		0.2	+	0.4	=	<b>0.6</b>

Lift elements will not be counted as a difficulty when having the following mistakes:

- forbidden element (element performed not according to the rules),
- performed with major EXE mistakes (mistakes of -0.3 points and more),
- total fall of the gymnast(s).

## 2.2. TECHNICAL ELEMENTS AND EVALUATION OF TECHNICAL VALUE (TV)

### 2.2.1. Technical Elements

**Every gymnast in a team** must perform the Technical Elements with good quality, or the elements will not be considered as difficulties for Technical Value. If one (1) or more gymnasts do not show the Technical Element successfully, the element will not be counted to points.

Technical Elements must be executed at the same time, in canon or within a short period of time. Technical Elements repeated identically several times in a program will be counted only one time.

Required waves and swings may be included in Body Movement Series or Combined Series.  
 Required pre-acrobatic elements may be included in Body Movement Series or Combined Series.  
 Required acrobatic elements must not be included in Body Movement Series or Combined Series.

**TOTAL SCORE OF  
 TECHNICAL VALUE:  
 MAX. 10.0 POINTS**

<p style="text-align: center;"><b>Combined Series Max. 3.6</b></p> <p style="text-align: center;"><u>4 highest levels of different difficulties</u></p> <p>(value of Combined Series is 0.2-0.7/0.9 of each)</p> <p>Balance + BMS        BMS + Balance        Jump/leap + BMS        BMS + Jump/leap        Balance + Jump/leap        (or vice versa)</p>	<p style="text-align: center;"><b>Balances Max. 1.0</b></p> <p>1 balance (A, B or C)        A – 0.1        B – 0.2        C – 0.3</p> <p style="text-align: center;">Max. 0.3</p> <p>1 balance series</p> <p>A-series = 0.2 (A+A)        C-series = 0.3 (A+B/B+A)        D-series = 0.4 (B+B/A+C/C+A)        E-series = 0.5 (B+C/C+B)        F-series = 0.7 (C+C)</p>	<p style="text-align: center;"><b>Jumps/Leaps Max. 1.0</b></p> <p>1 jump/leap (A, B or C)        A – 0.1        B – 0.2        C – 0.3</p> <p style="text-align: center;">Max. 0.3</p> <p>1 jump/leap series</p> <p>A-series = 0.2 (A+A)        C-series = 0.3 (A+B/B+A)        D-series = 0.4        (B+B/A+C/C+A)        E-series = 0.5 (B+C/C+B)        F-series = 0.7 (C+C)</p>	<p style="text-align: center;"><b>Total Body Movements and Body Movements Series Max. 3.2</b></p> <p style="text-align: center;"><b>2 different total body waves</b> (0.3 each)        Max. 0.6</p> <p style="text-align: center;"><b>2 different total body swings</b> (0.3 each)        Max. 0.6</p> <p style="text-align: center;"><b>4 BM series</b>        A-BM series (2BM) – 0.3        B-BM series (3BM) – 0.4        C-BM series (4BM) – 0.5</p>
	<p style="text-align: center;"><b>Acrobatic and pre-acrobatic elements Max. 0.6</b></p> <p>2 acrobatic or pre-acrobatic elements (A, B or C)        A – 0.1        B – 0.2        C – 0.3</p> <p style="text-align: center;">Max. 0.6</p>	<p style="text-align: center;"><b>Lift elements Max. 0.6</b></p> <p>1 lift element (A or B)        A – 0.1        B – 0.2</p> <p>+ additional criteria:        0.0 – 0.4</p> <p style="text-align: center;">Max. 0.6</p>	

## 2.2.2. Evaluation of the Technical Value

The Panel TV evaluates the Technical Elements of the composition and counts their value.

All judges in the competition must give their score independently and must proceed in the following manner:

1. mark all the technical elements from the whole program before starting to count difficulties
2. count the number of required elements performed by the team while paying attention to the highest level of difficulties.
  - Calculation must start by taking into account first the combined series. Afterwards, no particular order apply:
    - balance and balance series,
    - jump/leap and jump/leap series,
    - body movement series,
    - total body waves and swings,
    - acrobatic and pre-acrobatic elements,
    - lift elements.
3. calculate the final score

### 3. ARTISTIC VALUE

Artistic Value (AV) consists of:

<b>Artistic Value (AV)</b> Max 10.0
--

<b>Artistic quality (AV-A)</b> Max 5.0	<b>Artistic elements (AV-B)</b> Max 5.0
<ul style="list-style-type: none"> <li>● AGG quality 2.0</li> <li>● Structure 2.0</li> <li>● Expression and music 1.0</li> </ul>	<ul style="list-style-type: none"> <li>● Difficulty elements 3.0</li> <li>● Collaboration elements 1.4</li> <li>● Originality elements 0.6</li> </ul>

#### 3.1. ARTISTIC QUALITY

Artistic quality (AV-A) consists of:

<b>Artistic quality (AV-A)</b> Max 5.0
---

<b>AGG quality</b> Max 2.0	<b>Structure</b> Max 2.0	<b>Expression and music</b> Max 1.0
<ul style="list-style-type: none"> <li>● AGG technique 0.5</li> <li>● Fluency in linking movements and movement series 0.5</li> <li>● Continuity 1.0</li> </ul>	<ul style="list-style-type: none"> <li>● Unity 0.2</li> <li>● Variety of the composition:               <ul style="list-style-type: none"> <li>- Directions, planes and levels 0.3</li> <li>- Use of space and formations 0.5</li> <li>- Travelling 0.3</li> <li>- Body movements 0.1</li> <li>- Balances 0.1</li> <li>- Jumps/leaps 0.1</li> </ul> </li> <li>● Tempo and dynamics 0.4</li> </ul>	<ul style="list-style-type: none"> <li>● Character and style of the composition 0.2</li> <li>● Expressive body language 0.2</li> <li>● Music 0.6</li> </ul>

<b>Penalties</b>
------------------

##### 3.1.1. AGG Quality

###### 3.1.1.1. AGG technique (0.5)

The philosophy of Aesthetic Group Gymnastics is founded on harmonious, rhythmic and dynamic movements performed with natural use of breathing and strength, showing continuity and fluency. Aesthetic Group Gymnastics is composed of stylized and natural total body movements where hips form the basic movement center.

The composition must be performed by using the **total body movement technique** that follows AGG philosophy. *AGG technique: see appendix.*

Body movements and body movement series with the AGG technique must be predominant in the composition.

**AGG technique deductions:**

Composition does not show the total body movement technique:

- during some parts of the program -0.3
- during the whole program -0.5

**3.1.1.2. Fluency in linking movements and movement series (0.5)**

Movements and movement series must be linked fluently and naturally. The movements must be tied together in a way that the flow of the movements continues from one movement to another as if it was created by the previous movement, underlining continuity.

The composition must show elements and element series without these appearing as separate parts.

**Fluency in linking movements and movement series deductions:**

Movements and movement series are not fluently and naturally linked to the previous or following movements:

- during some parts of the program -0.3
- during the whole program -0.5

**3.1.1.3. Continuity (1.0)**

The composition must show continuity from the beginning of the program until the end of the program. Any part of the composition that disturbs or breaks the continuity of the program will result in a continuity deduction.

Continuity errors include e.g. poorly connected or performed lifts or pre/acrobatic elements, poor or illogical connecting of elements (e.g. ordinary running), fixed upside-down vertical position of head-shoulders-hips line during elements when it is fixed for more than 2 seconds etc.

**Continuity deductions:**

- illogical connections in the program -0.1 / each time
- gymnast is static during the program -0.1 / each time

**Note: Maximum deduction for "Continuity" is 1.0!**

**3.1.2. Structure****3.1.2.1. Unity (0.2)**

The composition must form a total unity from the beginning of the program until the end of the program, even though the composition is varied. Different parts of the composition may not appear as separate parts. Breaks in the composition structure and style are not permitted. The storyline of the composition must not be broken.

Different kinds of solos or canons give nuances for the composition, but they must not be overused. Good synchronization and similar technique and performing as a team must be predominant.

**Unity deductions:**

Composition does not form a total unity:

- during some parts of the program -0.1
- during the whole program -0.2

**3.1.2.2. Variety of the composition (1.4)**

The structure of the whole composition must be versatile and varied. This includes variety of the composition, variety in directions, planes and levels, variety in use of space and formations, variety in travelling and variety of body movements, balances, jumps and leaps.

The overall composition must be varied. The use of different movement groups (body movements, balances, jumps and leaps) must be varied and must be in harmony and balance during the composition.

**3.1.2.2.1. Variety in directions, planes and levels (0.3)**

The composition must be performed using different directions (forward, backward, lateral, diagonal, oblique) and different planes and levels (low level: e.g. *on the floor*; high level:

*e.g. in a standing position with body elevated, or in the air like jumps and leaps; and medium level: between low and high levels - e.g. on knees or bent legs with body leaned).*

The whole team must show movements and series on each level during the program. The whole team must show different directions at the same time as well as different planes and levels at the same time. The same direction, plane or level can last **max. 10 sec each time** and must then be changed immediately.

**Variety in planes, directions and levels deductions:**

Staying too long (more than 10 sec)  
in one direction, plane or level -0.1 / each time

Not showing all the required criteria (direction, plane and level) -0.1 / each time

**Note: Maximum deduction for “Variety in directions, planes and levels” is 0.3!**

**3.1.2.2.2. Variety in use of competition area and formations (0.5)**

The team must use all areas of the competition carpet. The formations must vary in size and location in the competition area. During the program the team must show a minimum of **6 formations** that are different in the shape. The formations that differ only in size or direction will not be considered as different formations.

The same formation and/or the same location of the formation on the competition area must not be overused (= used more than **three times**) during the program. The same location in the competition area and/or the same formation can last **max. 10 sec at a time** and then it must be immediately changed.

**Variety in the use of competition area and formations deductions:**

- Staying too long (more than 10 sec)  
in the same formation or location -0.1 / each time
- Same formation and/or location of the  
formation is overused (used more than three times) -0.1 / each time
- Some parts of the competition area are  
not used -0.1
- Less than 6 different formations -0.1

**Note: Maximum deduction for “Variety in the use of competition area and formations” is 0.5!**

**3.1.2.2.3. Variety in travelling (0.3)**

Changing location in the competition area must be fluent and have a logical reason. Travelling can be done e.g. by taking steps, rolling or leaping. Travelling must demonstrate good technique and use different styles or types of travelling.

If travelling is performed with steps, these connecting steps must not include ordinary running or steps with any inconsistent style and connecting steps should not be overused. The same way of travelling must not be overused (= used more than **three times**) during the program.

**Variety in travelling deductions:**

- Travelling without a logical reason  
(illogical change of place) -0.1 / each time
- Same way of travelling is overused  
(used more than three times) -0.1 / each time

**Note: Maximum deduction for “Variety in travelling” is 0.3!**

**3.1.2.2.4. Variety of body movements (0.1)**

The composition must contain different body movements, body movement series and different movement types. Similar body movements or movement types must not be overused.

**Variety must be demonstrated by:**

- performing all fundamental body movements, with varied forms of body movements,
- showing movements in different planes or levels or with different power or tempo,
- with and without steps.

**Variety of body movements deductions:**

- Not fulfilling all required criteria -0.1
- Similar body movements are overused -0.1

**Note: Maximum deduction for “Variety of body movements” is 0.1!**

**3.1.2.2.5. Variety of balances (0.1)**

The composition must have a minimum of 3 different types of balances.

**Variety must be demonstrated by:**

- static vs. dynamic balances: at least one pivot,
- different directions of the free leg: front, side, and back (all must be shown),
- different shapes e.g. with and without support of hands, with or without body movement, with straight legs or a bent leg, in different planes etc.

**Variety of balances deductions:**

- Not fulfilling all required criteria -0.1

**3.1.2.2.6. Variety of jumps and leaps (0.1)**

The composition must have a minimum of 3 different types of jumps and leaps.

**Variety must be demonstrated by:**

- different take-offs: both leap and jump technique must be shown
- different directions: with turning or moving straightforward
- different shapes: with or without body movement, with straight legs or bent leg(s)

**Note: Same body movement (e.g. back bend) during the jump or leap can be repeated max. three (3) times!**

**NOTE:**

If part of the team performs e.g. split leap and other part performs a split leap with a back bend, it **is** counted as one of the allowed body movements to repeat.

**Variety of jumps and leaps deductions:**

- Not fulfilling all required criteria -0.1
- Same body movement during jump or leap is used more than 3 times -0.1

**Note: Maximum deduction for “Variety of jumps and leaps” is 0.1!**

**3.1.2.3. Tempo and dynamics (0.4)**

**Fast and slow parts of the composition**

Variation in the tempo of the composition must be clear. The structure of the composition must have at least **one clearly fast part** and at least **one clearly slow part**, and the gymnasts must be able to perform in different tempos during the program.

**Strong and soft parts of the composition**

The composition must be dynamic. The structure of the composition must have at least **one clearly strong part** and at least **one clearly soft part**, and the gymnasts must be able to perform different dynamics during the program.

**Tempo and dynamics deductions:**

- Missing at least one clearly fast part -0.1
- Missing at least one clearly slow part -0.1
- Missing at least one clearly strong part -0.1
- Missing at least one clearly soft part -0.1

### 3.1.3.Expression and music

#### 3.1.3.1. Character and style of the composition (0.2)

The composition must have a clearly defined character and style. The character and style must be carried throughout the whole composition. The idea and atmosphere of the composition must form a consistent unity, showing the character and style of the composition.

##### **Character and style of the composition deductions:**

Character and style of the composition is not developed:

- During some parts of the program -0.1
- During the whole program -0.2

#### 3.1.3.2. Expressive body language (0.2)

The composition must be expressive, and expressiveness must be shown in the movements during the whole program. The idea and the expressiveness of the composition must form a consistent unity throughout the whole composition. The expression must be developed through movements and movement series, not through separate and constrained expressions.

The composition must show aesthetic appeal; this can be seen in the movements and in the style of gymnastics expressions. Expressive body language must be appropriate for the gymnasts' age category, skill level of the team and the team's ability to express the style. Expression must suit the style and look natural. Over-dramatic facial expressions are not considered natural and appropriate for AGG.

##### **Expressive body language deductions:**

Body language is not expressive and/or appropriate for AGG:

- During some parts of the program -0.1
- During the whole program -0.2

#### 3.1.3.3. Music (0.6)

The music must correspond to the idea and expression of the composition. In the composition, the movements, style, and rhythm of the music must fit together. The movements of the gymnasts must form a unity with the music, and if the tempo or atmosphere of the music changes, this must be reflected in the composition and execution.

The composition must complement the structure of the music, e.g. by using the accents of the music and its melody. In addition, the use of rhythm and melody as well as different shades and effects of the music must be shown in the composition. Monotonous background music is not allowed.

The music of the composition must be varied in tempo and dynamics. The music must have at least **one fast part**, at least **one slow part**, at least **one strong part** and at least **one soft part**.

The theme, style, and level of difficulty of the music must be suitable for the gymnasts' age category. The team must show the ability to express the chosen music.

The music must form a unity. If the music is composed of different musical pieces, the different themes and modes must be linked together, and their coexistence must have the maximum unity possible. Gaps in the music or poor linking between two musical themes is not allowed. The editing of the music must be of good quality.

Music can contain additional sound effects, but they must not be irritating or disconnected. The music must not end by breaking off abruptly. The music must not end before or after the last movement of the gymnasts.

**Music deductions:**

- Music does not support the composition (background music):
  - during some parts of the program -0.1
  - during the whole program -0.2
- Music is not variable: -0.1
- Music is not appropriate for the team (skills, age, etc.): -0.1
- Music stops before or after last movement -0.1
- Disconnected music (illogical combination of music, music is poorly linked, disconnected additional effects, music ended by breaking up abruptly, etc.) -0.1 / each time

**Note: Maximum deduction for “Music” is 0.6!**

**3.1.4. Penalties**

**3.1.4.1. Acrobatic and pre-acrobatic elements**

The composition must contain two (2) different acrobatic or pre-acrobatic elements.

Acrobatic elements are movements in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s), head or in the air.

Pre-acrobatic elements are acrobatic movements in which the gymnast's body does not rotate on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s), head or in the air.

All acrobatic and pre-acrobatic elements must be performed fluently and with consideration to the gymnasts' agility and skills, correct techniques, and must be naturally integrated in the composition.

Required pre-acrobatic elements may be included in Body Movement Series or Combined Series.

Required acrobatic elements must not be included in Body Movement Series or Combined Series.

**Permitted acrobatic and pre-acrobatic elements:**

**a) Acrobatic elements without air time**

All acrobatic elements without air time in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down with support of hand(s), elbow(s) or head – such as cartwheel (all types), walkover (all types), chest roll (all types), etc.

**b) Acrobatic elements with air time**

All acrobatic elements with air time in which the gymnast's body rotates on or over its vertical position (head-shoulders-hips line) upside down in the air – such as walkover and cartwheel with air time (with hand/s support – handspring, without hand/s support – aerial), flip (forward or backward), etc.

No more than one full rotation (360°) in the air is allowed. Gymnasts may start the element from one foot, both feet, from standing, plié or from a round-off. In case an element is started from a round-off, it will be considered as one (1) acrobatic movement. Gymnasts must finish the element on one foot or both feet.

**c) Pre-acrobatic elements**

All pre-acrobatic elements in which the gymnast's body does not rotate on or over its vertical position (head-shoulders-hips line) upside down – such as somersault (forward or backward) with or without airtime, wheel with support on various parts of the body (chest, elbows or shoulders), shoulder roll (transition through the chest to the shoulder blades or vice versa), lateral rotations passing through a bridge (all types), etc.

**d) Stands on various parts of body**

All types of stands on various parts of the body with clear and fixed stop in the vertical position during the element (hand stand, shoulder stand, chest stand, elbow stand, bridge, etc.).

The fixed stop must be clearly visible but must not be longer than two (2) seconds. It is not allowed to perform a stand on a head. Stands on various parts of body must not be a part of the starting and ending positions. Bending in the lumbar spine during the element will result in an EXE deduction.

**e) Acrobatic and pre-acrobatic elements transitioning into stands on various parts of body and vice versa**

All acrobatic and pre-acrobatic elements without air time transitioning into any type of stand on various parts of the body with clear and fixed stop in the vertical position during the element or vice versa – such as somersault backward transitioning into hand stand, etc.

The fixed stop must be clearly visible but must not be longer than two (2) seconds. It is not allowed to perform a stand on a head. Stands on various parts of body must not be a part of the starting and ending positions. Bending in the lumbar spine during the element will result in an EXE deduction.

All acrobatic and pre-acrobatic elements that do not meet the necessary requirements and are not listed in the “Examples of acrobatic and pre-acrobatic elements” will be considered as forbidden movements and will result in an AV-A penalty. Those elements will not be counted as elements with a technical value either.

**Acrobatic and pre-acrobatic elements penalties:**

*by proposal of the majority of the AV-A judges*

- forbidden acrobatic or pre-acrobatic element: -0.5 / each time / each element

**3.1.4.2. Lift elements**

A lift is a collaborative element in which the lifted gymnast/s lose/s contact with the floor and has their body completely supported by the other gymnast/s. The lifted gymnast/s must be active (has to help with their own power during the lift).

Due to the safety reasons, it is not allowed for a male gymnast to be lifted (to lose contact with the floor and have their body completely supported by the other gymnast/s) by an only one female and/or other gender gymnast.

The composition may include lifts, pyramids or various collaborations that must be performed:

- with consideration to the gymnasts' ability and skills (healthy aspects),
- with a good technique (muscles control, fluency etc.),
- with a logical connection to the program.

Lifts, pyramids and collaborations must be aesthetic and must not be overused in the composition.

The whole team must participate either by physical contact or by passing over, under or through a gymnast/gymnasts in some part of the “main action” of the lift element (from take-off to landing). At least one gymnast must lose contact with the floor so that the lifted gymnast(s) is/are supported by other gymnasts.

It is allowed to perform the lift elements in subgroups. There must be at least 4 gymnasts in each subgroup. Should this element be performed in the subgroups, the lift elements must be totally identical for all of the subgroups. There must be an identical number of gymnasts in each subgroup.

Lifts must be performed with consideration to the gymnasts' ability and skills (health aspect). During a lift, the lifted gymnast(s) can go over the vertical line in an upside-down position but must not stop in that position. One gymnast must not lift more than the weight of one gymnast at the same time. Height of the lift cannot be higher than the height of two gymnasts and no more than three levels, including the lifting gymnast(s).

**Forbidden lift elements:**

The following lifts, pyramids and collaborations are forbidden in any part of the composition:

- having one gymnast lifting the weight of more than one other gymnast at the same time,
- performing a lift or a pyramid that is higher than the height of two gymnasts and no more than three levels, including the lifting gymnast/s,

- an acrobatic element with air time performed by a lifted gymnast during a lift,
- having male gymnast being lifted by an only one female and/or other gender gymnast,
- vertical rotation with air time during a lift element.

**Lift elements penalties:**

*by proposal of the majority of the AV-A judges*

- forbidden lift element: -0.5 / each time / each element

**3.1.4.3. Religion, nationality and political insults**

The music, composition and competition dress must be aesthetic and must not hurt or insult people or express any religion, nationality or political opinions.

**Religion, nationality and political insults penalties:**

*by proposal of the majority of the AV-A judges*

- Religion/nationality/political insult: -0.3

**Note: Maximum penalty for “Religion, nationality and political insults” is 0.3!**

**3.1.4.4. Team entrance**

*See Generalities: The length of the competition program*

**Team entrance penalties:**

*by proposal of the majority of the AV-A judges*

- Team entrance is accompanied by music or extra movements or it takes too long time: -0.3

**3.1.4.5. Extra sound made by gymnast/s**

*See Generalities: Discipline of gymnasts and coaches*

**Extra sound made by gymnast/s**

*by proposal of the majority of the AV-A judges*

- During the composition a gymnast make a vocal signal or sound: -0.1

**3.1.4.6. Dress, hair and make-up not conforming to the regulations**

*See Generalities: Dress, hair and make-up of the gymnasts*

**Dress, hair and make-up penalties:**

*by proposal of the majority of the AV-A judges*

- Dress not conforming to the regulations:
  - for one gymnast -0.1
  - for two or more gymnasts -0.2
- Hair not conforming to the regulations:
  - for one gymnast -0.1
  - for two or more gymnasts -0.2
- Hairdo destroyed during program:
  - each gymnast / each time -0.1/ each destroyed hairdo
- Make-up not conforming to the regulations:
  - for one gymnast -0.1
  - for two or more gymnasts -0.2

*Penalty taken by the AV-A Head Judge (after proposal from Line Judges)*

- Lost items (hair decoration, toe shoe, etc.) -0.1 / each lost item

*Penalty taken by Judge Responsible (after proposal from Line Judges):*

- Color spot on the competition area caused by hair dye -0.2 / each color spot

#### **3.1.4.7. Length of the competition program**

*See Generalities: The length of the competition program*

#### **Length of the competition program penalties:**

*Penalty taken by the AV-A Head Judge (after proposal from Time Judges)*

- Every additional or missing full second -0.1 / each second

#### **3.1.5. Evaluation of Artistic quality (AV-A)**

- Maximum score for Artistic quality (AV-A) is 5.0 points.
- During the program, a judge marks the content of the program and each mistake deviating from AV-A requirements.
- When the program ends, a judge:
  - deducts the mistakes from the maximum value of each requirement, using the AV-A deduction table,
  - counts the points for each requirement, giving the total score for the team,
  - if needed, marks a proposal for the penalties.

**3.1.6.AV-A Artistic quality deduction table**

	<b>Mistakes and deductions</b>	<b>Max value</b>
<b>AGG QUALITY</b>		<b>2.0</b>
AGG technique	Composition does not show the total body movement technique: -0.3 during some parts of the program -0.5 during the whole program	0.5
Fluency in linking movements and movement series	Movements and movement series are not fluently and naturally connected to the previous or next movements: -0.3 during some parts of the program -0.5 during the whole program	0.5
Continuity	Illogical connections in the program: -0.1/each time Gymnast is statics during the program: -0.1/each time	1.0

<b>STRUCTURE</b>		<b>2.0</b>
Unity	<u>Composition does not form a total unity:</u> -0.1 during some parts of the program -0.2 during the whole program	0.2
Variety of the composition	<u>Variety in directions, planes and levels:</u> Staying too long (more than 10 sec) in one direction, plane or level: -0.1 / each time	0.3
	<u>Variety in use of space and formations:</u> Staying too long (more than 10 sec) in the same space or same formation: -0.1 / each time Same formation and/or same location of the formation is overused (used more than three times): -0.1 / each time Some parts of the competition area are not used: -0.1 Less than 6 different formations: -0.1	0.5
	<u>Variety in travelling:</u> Travelling without a logical reason (illogical change of place): -0.1 / each time Same way of travelling is overused (used more than three times): -0.1 / each time	0.3
	<u>Variety of body movements:</u> Not fulfilling all required criteria: -0.1 Similar body movements are overused: -0.1	0.1
	<u>Variety of balances:</u> Not fulfilling all required criteria: -0.1	0.1
	<u>Variety of jumps and leaps:</u> Not fulfilling all required criteria: -0.1 Same body movement during jump or leap is overused: -0.1	0.1
	Tempo and dynamics	Missing at least one clearly <b>fast</b> part: -0.1 Missing at least one clearly <b>slow</b> part: -0.1 Missing at least one clearly <b>strong</b> part: -0.1 Missing at least one clearly <b>soft</b> part: -0.1

<b>EXPRESSION AND MUSIC</b>		<b>1.0</b>
Character and style of the composition	Character and style of the composition is not developed: -0.1 during some parts of the program -0.2 during the whole program	0.2
Expressive body language	Body language is not expressive and/or appropriate for AGG: -0.1 during some parts of the program -0.2 during the whole program	0.2
Music	Music does not support the composition (background music): -0.1 during some parts of the program -0.2 during the whole program Music is not variable: -0.1 Music is not appropriate for the team (skills, age, ect.): -0.1 Music stops before or after last movement: -0.1 Disconnected music (illogical combination of music, music is poorly linked, disconnected additional effects, music ended by breaking up abruptly, etc.): -0.1 / each time	0.6
<b>TOTAL</b>		<b>5.0</b>

<b>PENALTIES</b> (by proposal of the majority of the AV-A judges)	<b>EACH TIME</b>	<b>max.</b>
Forbidden pre/acrobatic element, lift element	-0.5 / each element / lift	no max.
Religion / nationality / political insult	-0.3	-0.3
Team entrance	-0.3	-0.3
Extra sounds made by gymnast/s	-0.1 / each time	no max.
Dress not conforming to the regulations	-0.1 for one gymnast -0.2 for two or more gymnasts	-0.2
Hair not conforming to the regulations	-0.1 for one gymnast -0.2 for two or more gymnasts	-0.2
Hairdo destroyed during program	-0.1/ each destroyed hairdo	no max.
Make-up not conforming to the regulations	-0.1 for one gymnast -0.2 for two or more gymnasts	-0.2
<b>PENALTIES</b> by the AV-A Head Judge (after proposal of Line Judges)	<b>EACH TIME</b>	<b>max.</b>
Lost items	- 0.1 / each lost item	no max.

<b>PENALTIES</b> by Judge Responsible (after proposal of Line Judges)	<b>EACH TIME</b>	<b>max.</b>
Color spot on competition area	- 0.2 / each color spot	no max.
<b>PENALTIES</b> by the AV-A Head Judge (after proposal of Time Judges)	<b>EACH TIME</b>	<b>max.</b>
Every additional or missing full second	-0.1 / each second	no max.

### 3.2. ARTISTIC ELEMENTS

Artistic elements (AV-B) consist of:

Artistic elements (AV-B) Max 5.0		
<b>Difficulty elements</b> Max 3.0	<b>Collaboration elements</b> Max 1.4	<b>Originality elements</b> Max 0.6

#### 3.2.1. Difficulty elements (3.0)

The composition must show different difficulty elements such as bilaterality in jumps, leaps and balances, and body movement series including changing of directions and turning, changing of levels, travelling, variation of tempo and dynamics.

At least one (1) balance and one (1) jump/leap started directly from a body movement must be shown. At least one (1) rotating balance (illusion/pivot) and one (1) rotating jump/leap must be shown.

The whole team must show each element. All elements must be logically connected to the composition and performed fluently and with good technique.

Difficulty elements		Maximal amount	value each time	maximal value
Bilaterality in jumps/leaps and balances		4	0.2	0.8
Body movement series including:	changing of directions and turning	2	0.2	0.4
	changing of levels	2	0.2	0.4
	traveling	2	0.2	0.4
	tempo variation	1	0.2	0.2
	dynamics	1	0.2	0.2
Balance starting directly from a body movement		1	0.2	0.2
Leap/jump starting directly from a body movement		1	0.2	0.2
Rotating balance (illusion/pivot)		1	0.1	0.1
Rotating jump/leap		1	0.1	0.1
				<b>3.0</b>

##### 3.2.1.1. Bilaterality in jumps/leaps and balances (0.8)

The composition must show at least one (1) right side balance, one (1) left side balance, one (1) right side jump/leap and one (1) left side jump/leap.

The whole team must show the difficulty at the same time or within less than 5 sec. and with max two (2) different shapes. In case of two different shapes of balances all elements should be performed in the same flexibility direction of the raised leg. The bilaterality element must be **clearly** shown in leg raised front and/or back, split type movement with min. 135° amplitude (for jumps stag shape is allowed).

Left side is e.g. split leap with left leg in front, penché balance with left leg support and right leg up, illusion with left leg support, or front balance with left leg up. Right side is e.g. stag jump with right leg

in front and left in back, entrelace starting with right leg up and opening right leg in front and left in back, or penché pivot with right leg support.

The elements will be counted if executed in accordance with the TV criteria.

Balances and jumps/leaps not showing required amplitude or any side (e.g. jumps where shape is symmetric for both sides) do not give bilaterality value.

**Value for each successful bilateral element:**

**0.2/each time**

**3.2.1.2. Body movement series elements (2.0)**

The composition must show at least two (2) body movement series including changing of directions and turning, at least two (2) body movement series including changing of levels, at least two (2) body movement series including travelling, at least two (2) body movement series including tempo variation and at least two (2) body movement series including dynamics.

The body movement series must show the total body movement technique that follows AGG philosophy. *AGG technique: see appendix.* The requirements for the body movement series must be performed by all gymnasts.

The value of each successfully performed body movement series element is 0.2 points. The execution of each element must show good technique. Elements with major EXE mistakes (mistakes of -0.3 points and more) will not be evaluated.

**Note: Max. two (2) difficulty elements will be counted for one body movement series (e.g. body movement series including changing of levels, travelling and dynamics = value 0.2 + 0.2).**

**3.2.1.2.1. Body movement series including changing of directions and turning (0.4)**

- For turning, all gymnasts must turn at least one full round (360°) during the series in either vertical or horizontal direction.
- For change of directions, at least one (1) visible change of direction (forward, backward, lateral, diagonal, oblique) must be shown during the series.
- Both criteria described above (turning and change of directions) must be performed.

**3.2.1.2.2. Body movement series including changing of levels (0.4)**

- For change of levels, all gymnasts must show at least one body movement in standing level and one body movement in floor level during the series.

**3.2.1.2.3. Body movement series including changing travelling (0.4)**

- For travelling, all gymnasts must move clearly, at least 1.5 m. Travelling means changing location within the competition area. It can be done by taking steps, rolling, etc.

**3.2.1.2.4. Body movement series including tempo variation (0.2)**

- The composition must aim to express and encourage changes in tempo within the body movements in the body movement series. This can be seen as variations of slow and fast phases and as accelerations and slow-downs during the body movements in the body movement series. At least one visible tempo variation must be shown during the series.

**3.2.1.2.5. Body movement series including dynamics (0.2)**

- The composition must aim to express and encourage variation of power within the body movements in the body movement series. Dynamics is a variation of strong and soft or controlled and relaxed phases during the body movements in the body movement series. At least one visible dynamics variation must be shown during the series.

**Value for each successfully performed body movement series element: 0.2/each time until max.**

**3.2.1.3. Balance started directly from a body movement (0.2)**

The composition must show at least one (1) balance started directly from a body movement. Directly means without any extra step, stop, position or support between the body movement and a balance. The body movement must be a movement, not a position.

**Value for a balance started directly from a body movement: 0.2**

**3.2.1.4. Jump/leap started directly from a body movement (0.2)**

The composition must show at least one (1) jump or leap started directly from a body movement. Directly means without any extra step, stop, position or support between the body movement and a jump/leap. The body movement must be a movement, not a position.

**Value for a jump/leap started directly from a body movement: 0.2**

**3.2.1.5. Rotating balance (illusion/pivot) (0.1)**

The composition must show at least one (1) rotating balance (illusion or pivot). Rotation must be at least one full round (360°) for pivots or one full round (360°) for illusions in a fixed shape.

**Value for a rotating balance (illusion/pivot): 0.1**

**3.2.1.6. Rotating jump/leap (0.1)**

The composition must show at least one (1) rotating jump or leap. Rotation of min 180° in a fixed shape must be completed. For en-tournant jumps, a full round (360°) from gathering speed to landing must be completed.

**Value for a rotating jump/leap: 0.1**

**3.2.2. Collaboration elements (1.0)**

The composition must show different collaboration elements such as team collaboration without a lift, pair/trio collaboration with/without a lift, team lift, synchronized movement element of the team and canon element of the team. Collaboration elements must be clearly visible and identifiable.

Collaboration elements may appear throughout the whole composition including beginning and end of the program, but gymnasts must engage actively during the execution of the collaboration element.

Each team lift, synchronized movement element of the team and canon element of the team will be counted maximum once, additional team elements will not be counted. Each team collaboration without a lift, pair/trio collaboration with/without a lift will be counted maximum twice, additional team elements will not be counted.

Composition can contain other kinds of collaborations or lifts, but they will not be counted as collaboration elements with an AV-B value.

The value of each successfully performed collaboration element is 0.2 points. The execution of each element must show good technique. Elements with major EXE mistakes (mistakes of -0.3 points and more) will not be evaluated.

Collaboration elements	Maximal amount	value each time	maximal value
Team collaboration without a lift	2	0.2	0.4
Pair or trio collaboration with/without a lift	2	0.2	0.4
Team lift	1	0.2	0.2
Synchronized movement element of the team	1	0.2	0.2
Canon element of the team	1	0.2	0.2
			<b>1.4</b>

**3.2.2.1. Team collaboration without a lift (0.4)**

Team collaboration is a cooperative work between all gymnasts. It can be shown either by physical contact with each other or by passing over, under or through a gymnast/gymnasts. The whole team must clearly participate in the element. It is not allowed to perform the team collaboration in subgroups.

Support of one or more gymnasts is allowed; however, it is not allowed to perform a lift during the team collaboration.

**3.2.2.2. Pair and/or trio collaboration with/without a lift (0.4)**

The whole team must perform pair and/or trio collaborative movement(s) at the same time or within a short period of time. Movements of pairs/trios can be different. The collaboration in pairs/trios can be shown either by physical contact with each other or by passing over, under or through a gymnast/gymnasts.

**3.2.2.3. Team lift (0.2)**

The whole team must participate either by physical contact or by passing over, under or through a gymnast/gymnasts in some part of the “main action” of the lift element (from take-off to landing). At least one gymnast must lose contact with the floor so that the lifted gymnast(s) is/are supported by other gymnasts. It is not allowed to perform the team lift in subgroups.

Lifts must be performed with consideration to the gymnasts’ ability and skills (health aspect). During a lift, the lifted gymnast(s) can go over the vertical line in an upside-down position but must not stop in that position. One gymnast must not lift more than the weight of one gymnast at the same time. Height of the lift cannot be higher than the height of two gymnasts and no more than three levels, including the lifting gymnast(s).

**3.2.2.4. Synchronized movement element of the team (0.2)**

Synchronized movement element of the team is a movement or a series of movements performed by the whole team at the same time in total synchronicity. The whole team must perform identical movement(s) such as body movements and body movement series, dance steps performed with additional body movements etc. The duration of the element is min. 5 s/8 counts.

The team can travel or change the formation during the element; however, all gymnasts must use the same directions and levels throughout the whole element.

It is not allowed to perform jumps, leaps, balances or lifts during the synchronized movement element of the team.

**3.2.2.5. Canon element of the team (0.2)**

Canon element is a movement or a series of movements in which a movement or a series of movements is identically copied and repeated by all gymnasts at equally long time-intervals. At least three (3) intervals are required in a short period of time.

The whole team must participate in the canon element. The movement must be performed using the whole body.

**Value for each successfully performed collaboration element: 0.2**

**3.2.3. Originality elements (0.6)**

Originality elements are novel and rarely seen elements specific for each group and program. Originality elements give the program a special and additional artistic value and make the program unforgettable.

Originality elements	maximal value
Originality in movements	0.1
Originality in collaborations	0.1
Unforgettable connection between music and composition	0.2
Thematic story	0.2
	<b>0.6</b>

### **3.2.3.1. Originality in movements (0.1)**

Composition must contain movements, movement series and combinations of different movement groups performed in a novel, original and unforgettable way (e.g. combined with supporting formation or artistic collaboration element etc.). One single new or original movement is not enough.

Originality in movements can be seen in any element; it does not need to be a required technical element. Originality in movements could also come from the original style of the whole composition.

- **Value 0.1**

### **3.2.3.2. Originality in collaborations (0.1)**

Composition must contain various types of collaborations that are performed in new, innovative and unforgettable ways. The cooperation between the gymnasts must be original and varied throughout the whole composition.

- **Value 0.1**

### **3.2.3.3. Unforgettable connections between music and composition (0.2)**

Each composition must be harmoniously built around the specific choice of music. The unforgettable connections between the music and the composition can be achieved e.g. by a well-thought-out placement of specific elements on specific music accents and phrases of the music etc.

The whole composition must be choreographed so that the connections between the music and the composition form an unforgettable experience for the viewers.

- **Value 0.2**

### **3.2.3.4. Thematic story (0.2)**

Each composition must have a clear thematic “story” that is developed throughout the program and is performed with great artistic expression. The impression can come from a single impressive part of the composition or an unforgettable totality of the composition.

- **Value 0.2**

## **3.2.4. Evaluation of Artistic elements (AV-B)**

- Maximum score for Artistic elements (AV-B) is 5.0 points.
- During the program, a judge marks the content of the program and each required element.
- When the program ends, a judge:
  - counts the points from each required AV-B element, giving the total score for the team.

### 3.2.5.AV-B Artistic elements table

ARTISTIC ELEMENTS		maximal amount	value each time	maximal value
<b>Difficulty elements</b>				<b>3.0</b>
Bilaterality in jumps/leaps and balances		4	0.2	0.8
Body movement series including:	changing of directions and turning	2	0.2	0.4
	changing of levels	2	0.2	0.4
	traveling	2	0.2	0.4
	tempo variation	1	0.2	0.2
	dynamics	1	0.2	0.2
Balance starting directly from a body movement		1	0.2	0.2
Leap/jump starting directly from a body movement		1	0.2	0.2
Rotating balance (illusion/pivot)		1	0.1	0.1
Rotating jump/leap		1	0.1	0.1
<b>Collaboration elements</b>				<b>1.4</b>
Team collaboration without a lift		2	0.2	0.4
Pair or trio collaboration with/without a lift		2	0.2	0.4
Team lift		1	0.2	0.2
Synchronized movement element of the team		1	0.2	0.2
Canon element of the team		1	0.2	0.2
<b>Originality elements</b>				<b>0.6</b>
Originality in movements				0.1
Originality in collaborations				0.1
Unforgettable connection between music and composition				0.2
Thematic story				0.2

## 4. EXECUTION

*AGG philosophy and technique – see appendix*

### 4.1. EXECUTION REQUIREMENTS

- 1 The execution must be unified and synchronized.
- 2 All team members must perform the same elements with the same or equal degrees of difficulty, either simultaneously, successively or within a short period of time.
- 3 The technique of aesthetic group gymnastics must be predominant. All movements and movement combinations must be performed with total movement technique where changes from one body movement or formation to another must be fluent. In total movement technique, the leading movement is reflected in every part of the body when the movement flows from the center of the body, or backwards through the hips. The movements are tied together in such a way that the flow continues from one movement to the other.
- 4 The execution must show good technique, good extensions, accuracy of movements, variations in the use of muscular tension, relaxation and strength, and preciseness of formations and transitions.
- 5 The execution must show good posture, coordination, balance, stability and rhythm.
- 6 The execution must show the team's athletic skills such as coordination, flexibility, strength, speed and endurance.
- 7 The execution must show expressiveness and aesthetic appeal.
- 8 Gymnasts must perform the program to the dynamics and rhythm of the music.
- 9 The starting and ending positions are part of the execution.
- 10 All elements must be executed with consideration to healthy aspects: shoulders and hips being in line, supporting leg, shape, position, posture and lifts.

### 4.2. EVALUATION OF EXECUTION

Maximum points 10.00

#### **Penalty for missing or additional gymnast (by Head judge of EXE)**

*See Generalities: Number of gymnasts*

- each missing or additional gymnast: - 0.5 / gymnast

The Panel EXE evaluates the execution of the composition by counting the mistakes in the execution using the execution deduction table.

All judges in the competition must give their score independently and **must proceed in the following manner:**

- count all mistakes of the execution and deduct them from execution maximum points (10.00)
- calculate the final score

### 4.2.1. Execution deduction table

Requirements and types of mistakes	Deduction per mistake (each time/each element, unless otherwise specified)		
	Minor: -0.1	Medium: -0.2	Major: -0.3
<b>Posture and supporting line, healthy aspects</b>	<ul style="list-style-type: none"> <li>- incorrect supporting line (e.g. position of the supporting leg (in balances) or shoulders and hips not in line)</li> <li>- poor posture</li> <li>- heavy ending of the lift</li> </ul>	<ul style="list-style-type: none"> <li>- body control lost during or in ending the lift</li> </ul>	<ul style="list-style-type: none"> <li>- landing from jump/leap while still in back bend</li> <li>- in a lift, clearly poor posture/supporting line by lifting gymnasts</li> <li>- bending in a lumbar spine during a pre/acrobatic element</li> </ul>
<b>Basic gymnastics technique</b>	<ul style="list-style-type: none"> <li>- insufficient extension</li> <li>- difference in execution between gymnasts</li> <li>- lack of fluency/continuity</li> <li>- lack of lightness</li> <li>- staying too long in a fixed upside-down position during a pre/acrobatic element</li> </ul>	-	-
<b>Loss of balance</b> (in any movement):	with unnecessary movement (each time/gymnast)	with unnecessary hop (each time/gymnast)	with one support on hand, foot or other part of the body (each time/gymnast)
<b>Unity</b>	<ul style="list-style-type: none"> <li>- lack of synchronization</li> <li>- imprecise planes, levels or directions</li> <li>- inaccuracy between movement and rhythm of the music</li> <li>- inaccuracy in formations</li> </ul>	-	-
<b>Collision between gymnasts</b>	<ul style="list-style-type: none"> <li>- execution is not or is slightly disturbed</li> </ul>	<ul style="list-style-type: none"> <li>- execution is clearly disturbed for 1 gymnast</li> </ul>	<ul style="list-style-type: none"> <li>- execution is clearly disturbed for 2 or more gymnasts</li> </ul>
<b>Physical characteristics:</b> - lack in some area (flexibility, coordination, strength, speed, muscle control or endurance) during the whole program	slight lack (team/each area)	clear lack (1-2 gymnasts/each area)	clear lack (team/each area)

Requirements and types of mistakes	Deduction per mistake (each time/each element, unless otherwise specified)		
	Minor: -0.1	Medium: -0.2	Major: -0.3
<b>Body movements:</b> <ul style="list-style-type: none"> <li>- incorrect technique</li> <li>- characteristics not shown for basic body movements</li> </ul>	Small mistakes in technique of an element	Partly incorrect technique of an element	Totally incorrect technique of an element
<b>Jumps and leaps:</b> <ul style="list-style-type: none"> <li>- incorrect technique</li> <li>- characteristics not shown (shape not fixed, low elevation, poor body control, heavy landing)</li> </ul>			
<b>Balances:</b> <ul style="list-style-type: none"> <li>- incorrect technique</li> <li>- characteristics not shown (shape not fixed, insufficient amplitude, poor body control, insufficient rotation)</li> </ul>			
<b>Acrobatic and pre-acrobatic elements:</b> <ul style="list-style-type: none"> <li>- incorrect technique</li> <li>- characteristics not shown (shape not fixed, poor body control, insufficient rotation)</li> </ul>			

<b>Total fall</b> (two or more supports) in any movement	-0.4 each gymnast/ each time
<b>Lift fails</b>	<ul style="list-style-type: none"> <li>- lift fails: -0.5 each time</li> <li>- gymnast(s) fall onto the floor from lift: -0.5 each time</li> </ul>
<b>AGG technique:</b> - lack of total AGG technique	-0.3 whole program

## 5. JUDGING

### 5.1. GENERAL

All judges must have a valid IFAGG license.

The IFAGG Office maintains a Judges License register of authorized international judges.

The Technical Committee of IFAGG proposes to the Council of IFAGG a list of judges and a Judge Responsible for each A-category competition.

Judges list, Judge Responsible and Superior Jury for the World Championships and Continent Championships are nominated by the Council of IFAGG.

The choreographer or coach of a participating team cannot be a judge in the Competition Category in which the team competes.

### 5.2. EVALUATION JUDGES

#### 5.2.1. Evaluation Panels

The minimum number of judges for panels is 12. However, at the IFAGG Trophy, the required number of judges is 16.

Groups are evaluated by three panels of judges:

- Composition, **Technical Value (TV)**, consists of 3–4 judges
- Composition, **Artistic Value (AV)**, consists of 2 sub-panels (6–8 judges):
  - **Artistic quality (AV-A)**, consists of 3–4 judges
  - **Artistic elements (AV-B)**, consists of 3–4 judges
- **Execution (EXE)**, consists of 3–4 judges

#### **Duties and responsibilities of Evaluation Judges**

- The judges must give their scores independently.
- During the competition, the judges may not discuss the evaluation with each other, the coaches or the gymnasts.
- Each panel of judges works independently and gives their points regardless of the other panels' points.

One of the evaluating judges in each panel (No1) will be the **Head Judge**.

All judges send their scores to the Head Judge of the Panel.

After the first performing team in a competition category, the judges meet to negotiate within their own panel and check the differences in their scores together. Judges must give their scores before the negotiation.

#### 5.2.2. Head Judges

#### **Duties and responsibilities of the Head Judges of the Panels**

- supervises that the rules are followed
- calls the judges together after the first performing team in a competition category
- checks that differences between the judges' scores conform to the rules
- calls a meeting in situations where the difference between the scores is too high (the order between the judges' scores (highest/lowest) cannot be changed in the negotiation).
- calls the Superior Jury (if nominated) if the judges cannot come to an agreement.
- deducts penalties
- checks and approves computer scores together with the Judge Responsible before they are published

**Penalties** are given separately and will be deducted from the final score only if the majority (minimum 3/4 or 2/3) of the judges have made a proposal for the penalty.

### **Penalties deducted by Head Judges**

#### **Head Judge of the Artistic Value (AV-A panel):**

Penalties that require a proposal [-] from the majority of the AV-A judges:

- Forbidden movement/lift: -0.5 each movement/lift.
- Religious/political insult: -0.3
- Team's entrance takes too long, is accompanied by music, or includes extra movements: -0.3
- Dress, hair or make-up:
  - dress or hair or make-up do not conform to the regulations:  
-0.1 for one gymnast and -0.2 for two or more gymnasts
  - destroyed hairdo:  
-0.1 each destroyed hairdo

Penalty deducted by the AV-A Head Judge (after proposal from Line Judges)

- Lost items (hair decoration, toe shoe, etc.) -0.1 / each lost item

Penalty deducted by Judge Responsible (after proposal from Line Judges):

- Color spot on the competition area caused by hair dye -0.2 / each color spot

Penalty deducted by the AV-A Head Judge (after proposal from Time Judges):

- Time: -0.1 for each additional or missing full second

#### **Head Judge of the Execution:**

Penalties deducted by the Head EXE Judge:

- Borderline: for each gymnast each time the borderline is crossed: -0.1 points
- Missing or additional gymnast: -0.5 for each missing or additional gymnast

### **5.2.3. Judge Responsible**

The Judge Responsible must be a good role model in terms of behavior and actions for all evaluation judges. Judge Responsible will discuss final details of the competition (e.g. competition schedule and judges list) with the Council of IFAGG and supervise the competition to ensure that the actions of the judges are in accordance with IFAGG rules and regulations.

Duties and responsibilities:

- must be present for the team draws
- responsible for all instructional judges meetings before the competitions
- assigns evaluating panels according to their level (judges draw)
- deducts penalties (in accordance with General Competition Rules)
- checks and approves computer scores together with the Head Judges of the Panels before scores are published
- can allow for the repetition of a program in "force majeure" situations
- may interrupt the performance due to a technical problem or dangerous situation

### **5.2.4. Superior Jury**

The Superior Jury consists of 3–4 first level judges. They are part of the evaluating panels, but their scores are not included in the official scores.

Duties and responsibilities:

- supervises that the actions of evaluating panels are in accordance with IFAGG rules and regulations
- observes the judging work and listens to the negotiations
- in extreme cases has the right to interfere in the work of an evaluating panel. These cases must always be reported.

### 5.2.5. Line Judges

There must be a minimum of two (2) line judges who are observing the borderlines in the corners of the competition carpet.

Duties and responsibilities:

- Must signal each passing of the borderline of the competition area with a flag and record each of them on the designated slip of paper. At the end of the exercise, the line judges send the slip of paper to the Head Judge of the Execution Panel who approves the penalty. Penalty is deducted from the average score of Execution.
- Collect each lost item from the carpet and record each of them on the designated slip of paper. At the end of the exercise, the line judges send the slip of paper to the Head Judge of the AV-A Panel who approves the penalty. Penalty is deducted from the average score of the AV-A Panel.
- Fix color spots on the carpet (in case of detection) and record each of them on the designated slip of paper that will be provided. At the end of the exercise, the line judges send the slip of paper to the Judge Responsible who approves the penalty. Penalty is deducted from the average score of the AV-A Panel.

### 5.2.6. Time Judges

There must be at least two (2) Time Judges. The Time Judges must measure the time independently and record the time for each team separately on the designated slip of paper.

*If the length of the program does not conform to the regulations (according to at least one of the Time Judges), both Time Judges must come to the Head Judge of the Artistic Value (AV-A) Panel and show their stopwatches with measured timing. Head Judge checks and approves the penalty.*

Timing starts from the beginning of the first movement after the team has taken the starting position on the competition carpet. Timing stops as soon as all gymnasts are completely motionless.

## 6. SCORING THE POINTS

### 6.1. GENERAL

The final score for a group is calculated by adding the 3 partial scores: Technical Value, Artistic Value and Execution. The maximum score for the group in preliminaries and finals is 30.00 for each.

- Maximum score for the Technical Value 10.0
- Maximum score for the Artistic Value 10.0
- Maximum score for the Execution 10.0

The score from preliminaries is added to the score from finals to get the final results (ranking). The maximum score for the final results (ranking) is 60.00 points.

Panel TV (Composition/Technical Value) evaluates the technical elements of the composition and calculates the score (0.0 - 10.0).

Panel AV (Composition/Artistic Value) consists of 2 sub-panels – total score of AV is calculated from 2 (two) sub-scores:

- Panel AV-A evaluates the artistic quality of composition, calculates the score (0.0-5.0) and makes the proposal for any possible penalties [-].
- Panel AV-B evaluates the artistic elements of composition and calculates the score (0.0-5.0).

Panel EXE (Execution) evaluates the execution of the program, calculates the score (0.0 - 10.0) and makes the proposal for any possible penalties [-].

### 6.2. CALCULATION OF THE PARTIAL SCORES

The partial scores of Technical Value and Execution are the average scores of each evaluating panel.

The partial score of Artistic Value is the sum of average scores from 2 sub-panels (AV-A + AV-B).

Depending on the number of judges in the panel, the scores will be counted as follows:

**Panel of 4 judges:**

- the highest and the lowest scores will be eliminated and the average of the two middle scores is the partial score
- the difference between the middle scores taken into account must not be greater than 0.3

**Panel of 3 judges:**

- average of all scores will be calculated and the result is the partial score
- difference of all scores must not be greater than 0.4

## 7. AMENDING THE RULES

The Technical Committee of IFAGG is responsible for amending the rules. Any amendments are subject to prior IFAGG council approval.
